

Do you want to know what has been achieved with the funding of the H2020 EU program for Aquaculture in the Mediterranean area?

23 September 2021
14:15 – 16:30 CET

EAFP 2021
20 - 23 September • Virtual

20th International
Conference on
Diseases of Fish
and Shellfish

How outputs from EU projects can upgrade health management in Mediterranean aquaculture

- 14:15 – 14:30** - Introduction to the workshop – Snježana Zrnčić, Francesc Padros, Edgar Brun
- 14:30 – 14:40** - **MedAID** - A systematic approach for quantifying biosecurity measures – Saraya Tavornapanich (NVI)
- 14:40 – 14:55** - **MedAID** - Vaccination against VNN - Niels Lorenzen (DTU-Aqua)
- 14:55 – 15:20** - **PerformFish** - Current developments in seabream and seabass health management strategies for the Mediterranean farming: a view from PerformFish - Francesc Padrós and Maria Letizia Fioravanti
- 15:20 – 15:30** - **AdriAquaNet** – Novel natural compounds as potential therapeutics in aquaculture - Donatella Volpatti (UNIUD)
- 15:30 – 15:40** - **AdriAquaNet** - Novel feed formulation supplemented with autochthonous *Bacillus* sp. positively altered host-microbiome – Jerko Hrabar (IZOR)
- 15:40 – 15:50** - **FutureEUAqua Project**: How the Internet of Things can enhance aquaculture farms productivity and ensure sustainability? – Amedeo Manfrin (IZSVE)
- 15:50 – 16:10** - **ParaFishControl** – From practical guides to combat parasitic infections of gilthead sea bream and sea bass to recommendations for policymakers – Ariadna Sitjà-Bobadilla (IATS-CSIC)
- 16:10 – 16:30** - Discussion
