**UNIVERSITÀ  
DEGLI STUDI  
DI UDINE**  
HIC SUNT FUTURA

The workshop will present innovative approaches to enhance biosecurity in Mediterranean fish farming. Keynote lectures will introduce new tools and strategies for monitoring aquatic diseases and designing advanced biosecurity procedures. Sessions will focus on specific risks and preventive measures, providing practical insights and best practices to improve disease management in Mediterranean aquaculture systems. Presentations will also explore the applications of biosecurity across different geographic areas and sectors of aquaculture.

8:30-9:15 Registration and welcome

9:15-9:30 Greetings of the EAFP and SIPI Presidents

9:30-10:30 Key note lectures:

Melba G. Bonda Reantaso (FAO): A 12-point check list for surveillance of diseases of aquatic organisms

Ivona Mladineo (BCAS): The roadmap to redesign the biosecurity procedures in important EU farmed fish

10:30-11:00 Coffee break

### **1°Session: Biosecurity in marine aquaculture**

11:00-11:20 Saraya Tavornpanich (NVI): Biosecurity and risk of disease introduction and spread in Mediterranean seabass and seabream farms

11:20-11:40 Alain Le Breton: Main risks for the marine hatcheries

11:40-12:00 Snjezana Zrncic (CVI): Biosecurity challenges in Atlantic salmon farming in Adriatic Sea

12:00-12:20 Francesc Padros (UAB): European Partnership on Animal health and Welfare - the Action in Biosecurity

12:20-12:40 Nadia Cherif (INSTM): GFCM-TAG "Aquatic Animal Health and Biosecurity"

12:40-13:00 Discussion

13:00-14:00 Light lunch

### **2°Session: Biosecurity in freshwater aquaculture**

14:00-14:20 Andrea Fabris (API): Biosecurity in freshwater farming

14:20-14:40 Manuela Dalla Pozza (IZVe): Biosecurity manual-the Italian experience

14:40-15:00 Nadav Davidovich (IVS): Invasion of African tapeworm *A. macracantha* in tilapia farming and what is the role of wild animals as never-ending reservoir

15:00-15:20 Discussion

15:20-16:20 Niccolò Vendramin (DTU-Aqua): Mapping knowledge gaps in biosecurity in European Aquaculture

16:20-16:40 Coffee break

16:40-18:00 Roundtable and final discussion
